Github: https://github.com/AkashMaurya7478/ Mobile: +91-7518697478

Skills

- **Languages**: C++, Java, Kotlin, Python
- **Frameworks**: HTML and CSS
- **Tools/Platforms**: Github, Jira, Eclipse, Android Studio
- **Soft Skills**: Problem-Solving Skill, Leadership, Project Management, Adaptability

Projects

Science Experiment Advisor Mar'25-Apr'25

- Built a Science Experiment Advisor Platform using HTML, CSS, JavaScript, and Node.js to help users get experiment suggestions based on topics and difficulty levels.
- Implemented interactive UI and real-time recommendation logic, improving user engagement by 40% and overall usability
- Construct a Node.js backend with APIs for experiment retrieval, user input processing, and dynamic content generation.
- Ensured responsive design, clean code structure, and smooth client-server communication using modular JavaScript and Express.js, reducing average API response time by 35%

Hotel Management System Jun'25

- Developed a C++-based Hotel Management System featuring room booking, check-out, stay extension, and real-time availability tracking.
- Impose date handling, billing calculation, and conflict-free reservation logic using structured data and algorithms.
- Designed reports for occupancy and revenue, improving operational visibility by 50% and supporting faster decision-making.
- Applied clean modular design principles with vectors, structures, and validation logic, improving data management efficiency by 30%.

Summer Training

Data Structure and Algorithm

- Execute efficient algorithms using data structures to solve computational problems and optimize time complexity by up to 60%, applying optimized sorting, searching, and dynamic programming techniques.
- Collaborated in project-based learning, applying theoretical knowledge of Data Structures and Algorithms to real-world scenarios, including building a comprehensive Library Management System in C++ with 90% test coverage and 25% faster search performance using optimized data structures.

Certificates

- Social Network | NPTEL Apr'25
- Introduction Hardware and Operating Systems | Coursera Sept'24

Achievements

- Solved 100+ DSA problems across platforms like Leetcode, Codeforces and strengthening problem-solving. Jul'25

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 5.25** Pursuing
- **Baba Bhairav Nath Ji Inter College** Anawarganj. Azamgarh
  Intermediate;**62.8%** Apr'18 – Mar'20
- **Baba Bhairav Nath Ji Inter College** Anawarganj. Azamgarh
  Matriculation;**75.3%** Apr'20 – Mar'22
